

CUT-OFF MACHINE

BRILLANT 230

CUT-OFF MACHINE

BRILLANT 230

The Brillant 230 is a wet abrasive cut-off machine with fine dynamic, manual wheel movement into samples up to \emptyset 110 mm.

The spacious cutting chamber allows various clamping variations. The solid aluminium design comes with openings on the right and left hand side for cutting continuous long parts.

FINE DYNAMIC CUT-OFF

With the manual cutting movement, the cutting force is regulated through a set of gears. The cut is thereby jerk-free and more precise.

MANUAL HORIZONTAL MOVEMENT

The manual horizontal movement allows cutting long parts longitudinally and easy positioning of the sample below the cut-off wheel.

INNOVATIVE DETAILS

The sliding front door and the side door with safety interlock allow easy and optimal access to the cutter chamber. Further, the LED cutting chamber illumination is energy-saving. The arbour is protected against wearing by an interchangeable ring.

Z-AXIS

The manual Z-axis can be adjusted with 0.1 mm precision for parallel cuts.

BRILLANT 230

BASIC MODULE

Brillant 230

- I precise manual vertical movement with agle adjustable lever
- I table adjustable in x-direction
 - I sliding door and side door with door interlock
 - I T-slot table, stainless steel

- I chamber illumination with LED, arbour with protector
- | Easy-nut for easy change of cut-off wheel
- I solid aluminium design, powder coated

Order No.: M1820000

EQUIPMENT
